

Timed Speed Event
Goudies Road 20th March 2021

This annual event was missed in 2020 due to the Covid shutdown so there was plenty of interest in the 2021 event. The temperature was cooler than previous years being 13 degrees at 9.30am increasing to 15 degree by 1.00pm and later in the day.

The wind from the south west averaged 5.5kph in the morning increasing to 7.5kph in the afternoon. The day remained cloudy but dry throughout. Density altitude was 583 meters, so all up conditions were great for fast speeds.

Goudies Rd provides a straight of 6km with a certified gradient of less than 0.025%. Its timed section of 402.336 meters (1/4 mile) is set in the centre. Certified timing equipment is used for all Landspeed NZ events.

The Fastest speed set by a bike was by John Seccombe on a Kawasaki H2R – 330.76kph

The Fastest speed set by a car was David Cremer in a McLaren 675LT – 322.73kph.

The LSNZ landspeed record for 1000cc Motorcycles was broken and is now held by Walter Rands-Trevor on a Kawasaki ZX10R – 321.80kph.

David Cremer and Walter Rands-Trevor join just eight other members of LSNZ in the exclusive 200mph club (321.87kph)

Huge thanks were expressed by all participants to the farmers on Goudies Rd that allow this event to happen and the support given by the local community, the organisational work put in by LSNZ President John Seccombe and his small committee is also not forgotten .

Many thanks also to Malcolm Clunie and his safety crews for the Events Management and to the numerous other volunteers who gave their time to a great day of speed trials.
